# 1 The Model Client Framework The model client: Promoting safe construction

## Model client self-assessment checklist

## Level 1

Minimal OHS processes in place Few or no model client behaviours or initiatives

### Level 2

A3 Analyse OHS risks of project options
A5 Record risk information
A6 Develop the project brief
B2 Conduct design OHS reviews
B6 Include OHS in contract documents
B7 Set project OHS targets and KPIs
C2 Participate in site-based OHS programme
C4 Review and analyse OHS data
C5 Conduct OHS inspections/audits
D1 Evaluate project performance

#### Level 3

A1 Appoint OHS team
A2 Develop project OHS Charter
A4 Undertake a technical feasibility study
A7 Establish design requirements
B1 Select safe designer
B9 Select safe contractor
C1 Approve project OHS management plan
C3 Review method statements, JSAs and other plans

#### Level 4

	B3 Review design documentation
	B4 Review project cost
	B5 Implement change management process
	B8 Specify how OHS is to be addressed in tenders
	D2 Perform project completion review
	D3 Perform post-occupancy review
	D4 Perform final review of plant/equipment
	D5 Select safe maintenance providers

#### **Further information**

This booklet is the first in a series about clients promoting safe construction. Further information about the Model Client Framework is available from the Office of the Federal Safety Commissioner.

#### Acknowledgements

The authors would like to acknowledge that the project process map is based upon A Generic Guide to the Design and Construction Process Protocol developed by Kagioglou et al. (1998), The University of Salford, UK. Boxed and shaded descriptions of project phases are quoted directly from this Protocol. The Office of the Federal Safety Commissioner would like to thank Dr Helen Lingard, Dr Nick Blismas, Ms Tracy Cooke and Mr David Jellie from the School of Property, Construction and Project Management, RMIT University, who contributed to the development of this resource.
